

COSTS LAWYER STANDARDS BOARD LTD

RISK REGISTERS

As at 31 January 2023

1. RISK SCORING

(i) Nature of risk

Our operational risks are categorised as:

- Legal
- Financial
- Operational continuity
- Capacity
- Reputational
- Stakeholder

Our reputational risks are categorised as having the potential to impact one or more of the following regulatory objectives:

- Protecting and promoting the public interest.
- Supporting the constitutional principle of the rule of law.
- Improving access to justice.
- Protecting and promoting the interests of the consumer.
- Promoting competition in the provision of services.
- Encouraging an independent, strong, diverse and effective legal profession.
- Increasing public understanding of the citizen's legal rights and duties.
- Promoting and maintaining adherence to the professional principles, namely: independence and integrity; proper standards of work; acting in a client's best interests; duty to the court; confidentiality of client affairs.

(ii) Gross risk: Impact x Probability

Impact (I)	Probability (P)
The consequences of an event occurring. The event will have: Negligible (1): Very little consequence Slight (2): Some consequences, but none serious Moderate (3): Some consequences which could be serious Serious (4): Serious consequences Severe (5): Very serious consequences	The likelihood of an event occurring. The event is: Low (1): Very unlikely to occur Medium low (2): Unlikely to occur Medium high (3): Likely to occur High (4): Very likely to occur

IMPACT	5	5 YELLOW	10 YELLOW	15 RED	20 RED
	4	4 GREEN	8 YELLOW	12 YELLOW	16 RED
	3	3 GREEN	6 YELLOW	9 YELLOW	12 YELLOW
	2	2 GREEN	4 GREEN	6 YELLOW	8 YELLOW
	1	1 GREEN	2 GREEN	3 GREEN	4 GREEN
		1	2	3	4
		PROBABILITY			

(iii) Adequacy of controls

Descriptor	Score	Description
Fully effective	5	Controls are well designed for the risk and address the root causes. The Executive and Board are comfortable that controls are effectively applied, monitored and assured
Substantially effective	4	Most controls are designed correctly and are in place and effective. Some more work to be done to improve operating effectiveness, or doubts about operational effectiveness and reliability
Partially effective	3	Controls in place but are not sufficient to fully mitigate risk. There are potential weaknesses in the application of controls and limited assurance or reporting available
Largely ineffective	2	Significant control gaps. Either controls do not treat root causes or they do not operate at all effectively
None or totally ineffective	1	No credible control and limited confidence in the application or oversight of risk activity

2. OPERATIONAL RISK REGISTER

Logged by board: 6/4/2011	Reference: OP1	Risk score: I(5) x P(4) = 20
Risk to operation	Changes to the profession impact CLSB viability as more leave than enter the profession	
Nature	Financial, operational continuity	
Evidence of risk	<ul style="list-style-type: none"> • Increase in fixed costs (from October 2023): MOJ confirmation that it will expand fixed costs regime. • Whiplash reforms (from January 2021): could reduce work in low value PI claims, but may also increase complexity of instructions. • CJC review of civil litigation costs (report imminent): broad range of possible outcomes that could impact civil costs. • Link to OP3 in terms of numbers entering the profession. • Actual net attrition of 3 practitioners over 2022, 2 in 2021 and 12 in 2020. 	
Controls	<ul style="list-style-type: none"> • Monitor impact of shocks on the profession, such as coronavirus impact surveys in Q2 2020 and Q1 2021. • Respond to proposals/consultations to help stakeholders understand the Costs Lawyer market and ensure policy developments are in the public interest. • Implement regulatory arrangements that support safe innovation and diversification, to promote ongoing competition and choice. • Pursue recommendations from the Regulators' Pioneer Fund project to ensure regulation of Costs Lawyers is targeted and proportionate. • Mitigate risks around route to entry – see OP3. • Review of historic termination and reinstatement data carried out in 2020 and new processes put in place for communicating with potential returners. • Retain six months' operating budget as reserves. 	
Control adequacy	4	
Priority area of risk	High	
Actions/status	Monitor reasons for leaving the profession at PC renewal and respond to new factors.	

Logged by board: 13/1/2015	Reference: OP2	Risk score: I(5) x P(1) = 5
Risk to operation	The CLSB's size means that business continuity cannot be assured in all possible circumstances	
Nature	Operational continuity, capacity, reputational	

Evidence of risk	Being a small organisation, institutional knowledge and operational capacity of the CLSB rests with a small number of individuals. Duplication of staffing costs in the event of a long term absence could have a disproportionate impact given the number of staff.
Controls	<ul style="list-style-type: none"> • Increase in policy support resource from February 2021. • Updated Business Continuity and Disaster Recovery Plan adopted in July 2020 following restructure and reflecting changes for coronavirus. • Reassessment of continuity risks in light of coronavirus (including retaining core functions in the absence of a key staff member). • Move to a paperless organisation, including via the database, electronic processes and cloud storage. • Minimisation and logging of paper archives, with joint access. • Systematic documentation of all processes. • Joint signatories to bank account. • Retain six months' operating budget as reserves, based on costed risk analysis in 2021 taking into account various continuity scenarios.
Control adequacy	5
Priority area of risk	Low
Actions/status	<ul style="list-style-type: none"> • Rehousing or safe destruction of paper archives over coming years. • Knowledge transfer of all systems, processes, data and knowhow between staff and into internal policies and manuals.

Logged by board: 25/7/2017	Reference: OP3	Risk score: I(5) x P(3) = 15
Risk to operation	There are insufficient numbers of newly qualified Costs Lawyers such that regulated numbers fall to an unsustainable level	
Nature	Reputational, financial, operational continuity	
Evidence of risk	There is only one means of entry into the profession and one provider (ACLT). In 2017, due to financial concerns, the CLSB authorised ACLT's course to the end of 2020 for current trainees only. The course reopened to new students in January 2020 and ACL did not confirm a 2021 intake until December 2020. Historically, student numbers have been variable. A new course will be launched in September 2023 and, while we consider this a very positive development, we do not yet know the level of take-up and there will be a transitional period with few new qualifiers.	
Controls	<ul style="list-style-type: none"> • Flagship project in 2021 to create a new competency statement, providing a basis upon which to modernise regulatory requirements for the qualification by 2023. • Work closely with new ACLT board, appointed in January 2022, to effect sustainable change. 	

	<ul style="list-style-type: none"> Nurture relationship with ACLT to ensure early notification of any future issues and ensure current learners are protected through the transition. Retain six months' operating budget as reserves.
Control adequacy	4
Priority area of risk	High
Actions/status	Final delivery of consequential rule changes following Competency Statement.
Commentary	Establishing a stable, modern, flexible qualification is the CLSB's highest priority for the short and medium term.

Logged by board: 24/10/17	Reference: OP4	Risk score: I(5) x P(3) = 15
Risk to operation	ACL, named in the Legal Services Act 2007 as approved regulator (role undertaken by CLSB under delegation), becomes insolvent	
Nature	Regulatory, operational continuity, reputational (for CLSB and the profession)	
Evidence of risk	<ul style="list-style-type: none"> Economic climate may impact regulated numbers or Costs Lawyers' ability to pay membership fees. Lack of communicated value proposition for membership over the medium and longer term. Succession planning challenges. Inherent risk for any regulatory body acting under the delegated authority of its parent company. 	
Controls	<ul style="list-style-type: none"> Open dialogue with ACL to give us early warning of financial issues. Engagement with ACL in developing its new business plan for 2022-23. Retain six months' operating budget as reserves, and committed reserves account for paid up share capital. 	
Control adequacy	3	
Priority area of risk	Medium	
Actions/status	Financial instability in 2017-2018 appears to have subsided.	

Logged by board: 24/1/18	Reference: OP5	Risk score: I(4) x P(1) = 4
Risk to operation	Failure to comply with data protection obligations	
Nature	Legal, financial, reputational	
Evidence of risk	Increased risk under new GDPR arrangements, including a significant increase in the level of fine that can be imposed. CLSB handles the	

	personal data of Costs Lawyers, employees, agents and (to a limited extent) some members of the public.
Controls	<ul style="list-style-type: none"> • Data protection compliance review carried out in Q4 2019, leading to adoption of a new Data Protection Manual and implementation of updated processes for ensuring compliance in 2020. • Updates to IT systems with a focus on data security.
Control adequacy	4
Priority area of risk	Low
Actions/status	Updates to IT systems ongoing throughout 2020.

Logged by board: 23/1/19	Reference: OP6	Risk score: I(4) x P(4) = 16
Risk to operation	Breakdown in communications between any of ACL, ACL Training and the CLSB	
Nature	Operational continuity, reputational	
Evidence of risk	<ul style="list-style-type: none"> • Previous difficulties in securing ACL/ACLT engagement with CLSB, due to lack of resource or appetite. • Governance and oversight complications as between ACL and ACLT in relation to the Costs Lawyer Qualification. • Highly strained relations between ACL and ACLT during 2021. • A breakdown of any of the bilateral relationships could adversely impact the qualification and the CLSB. 	
Controls	<ul style="list-style-type: none"> • Contingency planning for operational areas that require ACL input. • New MOU and OP agreed with ACL in 2020. • Help ACL engage with its regulatory obligations as a designated body under the IGRs. • Extend engagement beyond ACL Chair to foster understanding within the Committee as a whole. • Work within the parameters of the new Protocol agreed with ACLT. 	
Control adequacy	2 – relations between ACL and ACLT could significantly impact CLSB but are largely outside of the CLSB’s control	
Priority area of risk	High	
Actions/status		

Logged by board: 21/4/21	Reference: OP7	Risk score: I(5) x P(2) = 10
Risk to operation	A significant, unexpected fall in practising fee income	
Nature	Operational continuity	
Evidence of risk	<ul style="list-style-type: none"> • The ability to collect practising fees is subject to LSB approval, which may be withheld for various reasons as outlined in the LSB's Practising Fee Rules. • The coronavirus pandemic reminds us of the potential for an economic crisis to occur without warning, affecting practitioners' ability to pay. 	
Controls	<ul style="list-style-type: none"> • Early engagement with the LSB on practising fee applications and budget setting. • Retain six months' operating budget as reserves. 	
Control adequacy	4	
Priority area of risk	Medium	
Actions/status		

Logged by board: 21/4/21	Reference: OP8	Risk score: I(3) x P(1) = 3
Risk to operation	Unplanned involvement in litigation results in the payment of significant legal costs and/or damages	
Nature	Legal, financial, reputational	
Evidence of risk	<ul style="list-style-type: none"> • Decisions of the CLSB are subject to judicial review. • The CLSB may choose to seek an injunction for breach of the Legal Services Act 2007. • A private law action for damages could be brought against the CLSB at any time. 	
Controls	<ul style="list-style-type: none"> • Risk is partially insured (including legal expenses insurance). • Retain six months' operating budget as reserves. 	
Control adequacy	5	
Priority area of risk	Low	
Actions/status	Insurance cover is scheduled for review in 2022.	

3. REGULATORY RISK REGISTER

Logged by board: 23/01/2020	Reference: R1	Risk score I(4) x P(1) = 4
Risk	The professional standards set by the CLSB do not achieve positive consumer outcomes or, where poor consumer outcomes cannot be prevented, the CLSB is unable to take action	
Risk to objectives	Regulatory objective: Protecting and promoting the public interest. Regulatory objective: Protecting and promoting the interests of consumers. Professional principle: Proper standards of work. Professional principle: To act in the best interest of the client.	
Evidence of risk	There is limited evidence of actual risk, although there are theoretical risks that must be controlled, for example: <ul style="list-style-type: none"> • Risk of complaints processes not being properly communicated: While the very low level of complaints about Costs Lawyers to the CLSB or LeO could suggest that either few complaints arise at first-tier or those that are raised are handled well, this may also suggest that consumers are unaware of how to complain to their Costs Lawyer. • Risk of under-insurance: Costs Lawyers are free to select an insurance provider from the open market, as this promotes competition and keeps fees at a sustainable level, but this may carry a risk of a Costs Lawyer not purchasing the right type of cover. • Risks from lack of supervision: The shift to remote working during 2020 could have long-term consequences for proper supervision and training of junior Costs Lawyers. As we do not regulate entities, we cannot address this at firm/system level. 	
Controls	<ul style="list-style-type: none"> • New Practising Rules, CPD Rules and Disciplinary Rules and Procedures implemented in 2020, including to increase the deterrent effect of financial penalties. • Guidance subject to systematic review from 2019, with all Handbook content reviewed by the end of 2021 (other than Code of Conduct, which will be reviewed in 2022). • New Supervision Policy and four supporting supervision frameworks adopted in 2021. • Risk reviews carried out on complaints procedures and under-insurance in 2021 with follow-up actions identified. • Data collected during year 2 of the Consumer Engagement Strategy to benchmark consumer outcomes across our areas of focus. 	
Control adequacy	4	

Priority area of risk	Low – no evidence of risk having materialised to date
Actions/status	Year 2 of the Consumer Engagement Strategy to be delivered by the end of H1 2022. Recommendations from the review of under-insurance to be carried out in 2022. Expansion of complaints procedure audit in 2022.

Logged by board: 31/10/2011	Reference: R2	Risk score: I(5) x P(2) = 10
Risk	Costs Lawyer (not working for SRA regulated firm) accepting client monies	
Risk to objectives	Regulatory objective: Protecting and promoting the public interest Professional principle: To act with integrity Professional principle: To act in the best interests of the client	
Evidence of risks	<ul style="list-style-type: none"> As Costs Lawyers are not permitted to handle client monies, they will not have systems in place to ensure proper handling in the event they do inadvertently or deliberately accept monies in breach of our rules. No evidence from client survey or complaints that a Costs Lawyer has handled client monies. However a complaint in Q1 2020 suggested there is scope for poor client outcomes even where a Costs Lawyer does not handle client money directly. Pending whiplash reforms could increase the prevalence of direct instructions – including complex instructions – from lay clients with a likely increase in the desire for funds on account. 	
Controls	<ul style="list-style-type: none"> Covered under Principle 3.6 of Code of Conduct. Associated guidance updated in 2020 following a targeted review, including to promote the use of TPMA's to safely deal with client monies. Client survey asks: "Did you send any monies to your Costs Lawyer other than in payment of an invoice?" Information sharing arrangement with LeO in relation to complaints involving client monies that fall within CLSB jurisdiction. 	
Control adequacy	4	
Priority area of risk	Medium	
Actions/status		

Logged by board: 24/07/2019	Reference: R4	Risk score: I(4) x P(2) = 8
Risk	CLSB cannot generate sufficient evidence about the consumer dimension of the Costs Lawyer market, resulting in regulatory arrangements that are misaligned to consumer need	
Risk to objectives	Regulatory objective: Protecting and promoting the public interest.	

	Regulatory objective: Increasing public understanding of citizens' legal rights and duties.
Evidence of risk	It has historically proven difficult to generate statistically significant data on the consumer experience with the Costs Lawyer market. Engagement with client surveys is low, as are complaint volumes, making traditional methods of data capture insufficient. It is intended that the Legal Choices project will provide additional data and insights into the way consumers interact with the market, although there have been threats to the success of that project including withdrawal of the Bar Standards Board.
Controls	<ul style="list-style-type: none"> • Consumer Engagement Strategy covering the period of our mid-term organisational strategy (2020 – 2023), establishing workstreams for building consumer-related evidence base. • Consumer outcomes framework developed in 2021 to inform strategy and overall approach to regulatory interventions. • Research projects launched in 2021 to directly target individual clients. • Data sharing arrangements with LeO in relation to complaints about Costs Lawyers. • Participation in the Legal Choices Governance Board, which oversees the project's risk register, to identify early warning signs that the project will not deliver as expected.
Control adequacy	4 – a forward plan is in place, as set out in the Strategy, but work will be ongoing for some time
Priority area of risk	Medium, so long as we remain on target to deliver Strategy
Actions/status	Implement Consumer Engagement Strategy.

Logged by board: 20/10/2020	Reference: R5	Risk score: I(4) x P(3) = 12
Risk	CLSB cannot promote all aspects of diversity within the profession given the small size of the regulated community and trainee population	
Risk to objectives	Regulatory objective: Encouraging an independent, strong, diverse and effective legal profession.	
Evidence of risk	<ul style="list-style-type: none"> • There is only one route of entry into the profession and, in some years, there may be no new students accepted through that route (linked to OP3). • Statistically the size of the profession makes it more difficult to strive for a composition that is reflective of wider society. • The LSB has provisionally assessed existing data that we capture on the diversity of the profession as insufficient. 	

Controls	<ul style="list-style-type: none"> • Testing of approaches to new diversity and inclusion survey. • Diversity work programme developed in 2021, with delivery in 2021 and 2022. • Audit recommendations made to ACLT on promoting diversity. • Seeking opportunities to collaborate with other regulators and organisations in this area.
Control adequacy	2 – plans are in place but it will take time to implement and then assess these during 2022
Priority area of risk	Medium, so long as we are able to deliver planned initiatives
Actions/status	Further work on survey response rates in 2022. Delivery of second stage of work programme in 2022.
